June 2019

Projects

Data Analysis Sales Insight

- Developed a comprehensive data analytics framework to extract actionable insights from sales data, enhancing business decision-making and revenue optimization.
- Implemented end-to-end data analysis processes, including data collection, preprocessing, exploratory data analysis (EDA), feature engineering, and predictive modeling using machine learning techniques (regression, classification, clustering).
- Designed interactive dashboards for intuitive visualization of sales trends, customer behavior, and market dynamics, enabling data-driven strategy formulation.

Experience

Deloitte Australia Data Analytics Job Simulation on Forage - August 2025

- Completed a Deloitte job simulation involving data analysis and forensic technology
- Created a data dashboard using Tableau
- Used Excel to classify data and draw business conclusions
